

CAMPER MEDICAL NEEDS

HEALTH HISTORY

HOW DO I TELL YOU ABOUT MY CAMPERS HEALTH NEEDS?

Every child must have a Health History signed by a parent or legal guardian. These forms help us provide the best care possible. For us to do this it's critical to communicate about your campers medical needs as much as possible. Thank you for helping us keep our campers safe!

Required fields include:

- Tetanus vaccination date and Chicken Pox question. (*unless State exemption certificate is provided.*)
- Special Dietary Requirements and any Allergies (*as needed*)
- It's important to have ALL medications included on the medical form before we can accept them at check-in. Make sure that if you make any last minute changes to your child's medication before arrival at camp, that you also update the medical form.
ONLY PROPERLY LABELED PRESCRIPTIONS SHOWING THE CHILD'S NAME AND OFFICIAL DOSAGE CAN BE ACCEPTED AT CAMP.

Should a child be prescribed medication after the completion of the registration we kindly require their Health History form be updated with the needed information before arrival to camp on registration day.

MEDICATIONS

Trained medical staff members handle distribution of all medications to campers. Medication will be collected upon the camper's arrival and coordinated by our full-time RN for distribution throughout the week. Any emergency medications, such as inhalers and EpiPens, will remain on your campers counselor at all times. Regulated refrigerators are available if needed for medical needs.

All medications **must** be in original containers with instructions clearly marked on a label with current dosage instructions. It's easy to want to consolidate when you are packing and put all their meds for the week into something convenient. However, state regulations require all medication to be in containers processed by a pharmacist or manufacturer. **We cannot make exceptions.**

CAMPER HEALTH

OVER THE COUNTER MEDICATION

Please leave all non-prescription medications at home for the week. Unfortunately, we are unable to dispense non-prescription medication.

Should I let my camper take a “medication vacation” during their time at camp?

Some parents use a week at summer camp to “take a vacation” from routine prescription medication, especially ADHD medication. We want to set your camper up for a successful, seriously fun, Christ-centered week, and keeping them on their regular prescription medication is an important factor for success. The camp environment is highly stimulating and most campers they need the help their regular prescription provides.

WHEN ARE MEDS GIVEN OUT?

Medication is given out at meals from Monday dinner to Saturday breakfast and bedtimes beginning Monday night.

Make sure to communicate with your camper if they should expect to be taking meds, so they’re aware.

As part our safety protocols, campers are asked to scan their camper bands at meals before receiving medication. This allows our medical team to visually verify that the correct camper is getting the correct medication.

HOW DO I GET MY MEDS BACK?

On Saturday your camp representative will pick up your meds from the meds pick up table and bring back home for you.

A list of some medications Hoblitzelle keeps on hand :

<p>Allergy / Antihistamines / Sinus / Cold and Cough Benadryl (liquid, tablets, topical) Cough Drops Robitussin / Robitussin DM Saline Nasal Spray Eye Drops Eye Wash Pain Reliever / Fever Reducer / Analgesics Ibuprofen (liquid & jr chewable tablets) Tylenol (liquid & jr. chewable tablets)</p>	<p>Stomach Relief Anti-Nausea Liquid Dramamine Immodium (liquid and tablets) Miralax Pepto (children’s and adult tablets) Tums Topical Aloe Gel Benadryl Anti-Itch Burn Gel Hydrocortisone Medicaïne Sting Swabs Neosporin Oragel Petroleum jelly Solarcaine</p>
